

Section 3: B-Zone Information

B-Zone Blind Permits are required to set up your own fixed blind in the B-Zone Area. (Please see Section 3.1 B-Zone Blind Permit Allocation Procedures for information on obtaining this permit.)

Section 3.0 B-Zone Waterfowl Permits

The area in Rondeau Bay described as 'B-Zone' is for the use of hunters wishing to hunt and / or erect their own blinds for waterfowl hunting during the regularly scheduled hunting season. Hunting is only permitted on Mondays, Wednesdays, Fridays, and Saturdays one half hour (1/2hr) before sunset and one half hour (1/2) after sunset.

1. Seasonal B-Zone Waterfowl Permits are required to hunt this area and are available at Barney's Boats, RWU Office, or the Rondeau Park Office. Hunters wishing to purchase this permit must have a valid Outdoors Card along with a valid Migratory Game Bird Stamp and Permit.
2. Anyone wishing to erect a blind in 'B-Zone' must obtain a Seasonal B-Zone Waterfowl Permit, register the blind and obtain a permit to erect a blind. Location choices for blinds are chosen by a first come first served line up. (Please see Section 3.2 B-Zone Blind Allocation Procedures). The hunter(s) must indicate the location of the proposed blind at the time of registration. No blind may be erected before obtaining the blind permit and until after the Tuesday after Labour Day.
3. Much of the 'B-Zone' water is adjacent to or over private land. Hunters are encouraged to cooperate with landowners.
4. Hunters entering the park are required to have the appropriate vehicle entry permit. (See Section 1 General Information on Hunting in Rondeau Provincial Park)

Blinds must be removed from the waters of Rondeau Bay by March 15th.
